

Update on New Headquarters

We are glad to announce that our new building at 1610 Landmark Road is taking shape.

The construction of the building is on schedule, and our Tenant Improvement construction to build offices and bathrooms is also underway.

We still expect to have lease commencement on October 1st and we will be transitioning over warehouse business for a go live date on or around November 1st.

Our warehouse staff will be working closely with you to develop plans and strategies to avoid any interruption in service or mis-delivery of goods.

With regards to our Customs business the transition will be very seamless and you should not expect any major challenges or disruptions.

Thank you in advance for your understanding and cooperation, and for the trust that you have always placed in us. We know at the end of this transition we will be better equipped to serve all of your needs now and into the future.

Sincerely,
RL Jones
