

# SUPPLY CHAIN SECURITY ADVISOR

As a certified C-TPAT company, we are committed to educating all our Business Partners on critical supply chain security issues.

*INSIDE THIS ISSUE*

## 5 STEP RISK ASSESSMENT

**REPORT:**

In case of any security incidents, involving your cargo, immediately report to the appropriate law enforcement agency.

Please contact us for assistance in reporting an anomaly to CBP.

**CONTACT:**

For questions or comments on any supply chain security issues, please contact:

[eacosta@rljones.com](mailto:eacosta@rljones.com)  
 619-661-1100

**SHARE:**

We strongly recommend you forward and share this information to all your vendors, carriers, freight forwarders, and third party logistics providers involved in the supply chain.

**JOIN:**

We encourage all business partners and other eligible companies to join C-TPAT or your country's supply chain security program. For further information on C-TPAT, please click [HERE](#).

We recommend all Business partners perform a periodic risk assessment of their international supply chain in order to identify and correct gaps vulnerabilities, and weaknesses.

All areas of vulnerability should be clearly identified and corrective actions taken as needed to address those weaknesses.

*“All areas of vulnerability should be clearly identified and corrective actions taken as needed to address those weaknesses.”*

The risk assessment should be documented and performed at least on an annual basis to review the integrity of the international supply chain to correct any vulnerabilities.

### The Five Steps/Areas

1. A master list of all international supply chain partners.
2. Identify all supply chain routes, inbound and outbound.
3. A threat assessment for each country in the supply chain.
4. Vulnerability level for all supply chain partners.
5. Annually review and update.
